O'Dell Assisted by Orchestra Tuesday

Miss Vesta O'Dell, senior of West Texas State, will give her senior piano recital next Tuesday night at 8:30 o'clock. Miss O'Dell is one of the outstanding young musicians of the Panhandle.

The College Orchestra, directed by Robert Louis Barron, will assist Miss O'Dell in this program.

Fined for Trespass on College Farm

An Amarillo man was fined \$25 and costs for fishing in the lake at the College Farm.

This lake is posted, and the public warned to stay off the premises. In spite of warning three Amarillo men entered the farm and refused to leave when notified by boys at the farm. Complaints were filed and the fine imposed in Justice court.

Ensign J. L. Dow Is Promoted Lieut.

According to word from St. Mary's College, Calif., J. L. Dow has been promoted from Ensign to Lieutenant (jg).

Lieut. Dow was a star football player on the Buffalo team a few years ago. He is now in the Navy Pre-flight School at St. Mary's College.

House Bill Reduced \$500 for W. T. S. C., but \$1,500 More Than Senate Approved

President J. A. Hill reported from Austin Tuesday morning that the free conference of the legislature had agreed upon the appropriation bill for West Texas State for the coming two years.

The conference reduced the amount allowed by the House \$500, but increased the amount in the Senate bill \$1,500. The total allowed for the coming two years was \$222,114 for each year, or a total of \$444,228 for the two-year period.

The free conference report was submitted to both the House and Senate Tuesday, the closing day of the legislature.

Air Mail Rate to Outside Is Changed May 1

A new air mail regulation became effective May 1 which affects a number of families who's sons are in the armed service.

The 6c air mail rate for each half ounce or fraction thereof continues where mail is handled through A. P. O. addresses or Fleet P. O.

But when mail is addressed to a geographic location outside the United States, instead of A. P. O. of Fleet P. O., air mail letters are subject to regular postal rates.

The postoffice department is taking steps to include all places where our troops are stationed in this regular 6c zones, but so far has not completed arrangements.

Chas. G. Stallings Died Tuesday; Fun- eral Held Yesterday

Charles Green Stallings, 76, died Tuesday morning at 1:52 a. m. at an Amarillo hospital where he had been under treatment for a few days. He had been in poor health for several months. He had been a prominent stock-farmer in Randall county for several years.

The funeral was held yesterday afternoon at 4 o'clock at the Baptist Church, with Dr. Roy L. Johnson officiating.

Interment followed in Dreamland Cemetery in charge of the Griggs-Thompson Funeral Home. Pall bearers were J. T. Sykes, Clem Dugan, O. A. Smith, Arthur Henry, S. L. Robinson and R. B. Gist.

Surviving are, the wife; three sons, Clarence Stallings of Canyon, Elmer Stallings of California, Forrest Stallings of Lyford; three daughters, Mrs. Joe Baber of Canyon, Mrs. H. H. Houtchins of Dimmitt, Mrs. Omar Shipp of Wichita Falls; one brother, John Stallings of Pueblo, Colo.

Randall County Leads Members of Farm Bureau

Randall county led the state during April in the drive for Farm Bureau members.

A total of 265 members was turned in during April. 58 members was the largest number turned in by any other county.

Intensive drives are on over the entire state for members in this organization, and more populated counties may take the lead away from Randall county during May.

Meetings are being held in all counties of the state to seek members.

Mr. and Mrs. Lon Davis, of Floydada, visited her parents, Mr. and Mrs. Henry Bradford, over the week end.

No Rush About Canning Sugar

Citizens Have Until Feb. 29, 1944, To Secure the 25 Pounds For Canning

There is no need of rushing down to get canning sugar while there is nothing on the market to can.

Every person will be allowed 25 pounds of sugar for canning up to February 29, 1944, and certificates may be secured whenever there is fruit or vegetables available for canning.

The wrong impression was given last week in some counties when it was announced that canning sugar would be available only for a limited time. This is absolutely false, as local boards are authorized to issue certificates for canning sugar at any time during the year that holders of Ration Book No. 1 call for canning sugar.

Sgt. Alvah Doak Writes Thrilling Rescue Experience

Mrs. W. E. Myers has received an interesting letter from her grandson, Sgt. Alvah Doak, who is on the Army Air Base, Presque Isle, Maine.

Sgt. Doak enclosed a newspaper clipping which told of the thrilling experience he had in the rescue of a cargo plane which was forced down in Quebec's uncharted wilderness.

Twenty men on the cargo plane built shelter and were located the day following the forced landing. Planes dropped food and supplies to the men, and they were forced to live in this isolated place for two months.

Sgt. Doak was a member of the rescue party which landed and helped the grounded crew get the ship ready to take off.

The rescue was considered one of the miracles of aviation because of the secluded spot at which the plane was grounded.

Mrs. Myers has received a V-Mail letter from her son, Sgt. Bud Myers, who recently landed with the 36th Division in Africa. "I wish I could tell you something about our experiences with submarines on the way over but that can wait until after the war," writes Sgt. Myers.

Bruce Cleland Made Ensign in the U. S. Navy

Bruce Cleland received his commission as Ensign in the Navy last week at San Francisco, and was home on a short leave. He left today for Tucson, Arizona, where he will receive further training.

Mr. Cleland enlisted in the navy in March, 1942, and has been stationed at San Francisco for more than a year.

He is the son of Mr. and Mrs. J. S. Cleland of this city and took his degree from West Texas State.

High Schools to Join in Service Sunday Night

With the Rev. Joe Findley preaching the sermon, seniors from Canyon High and West Texas High will have a joint Commencement Service in the college auditorium Sunday evening at 8:30 p. m.

Under the direction of Miss Mary Roberts, the Canyon High School band will play the processional and recessional numbers. The W. T. High chorus under Miss Ada V. Clark will present a special selection. Along with Supt. F. E. Savage who will preside, three pastors will assist in the services.

Russian Bundles Will Be Gathered During This Month

Mrs. J. W. Walker of Plainview, former State President of the Federation of Women's Clubs, is voluntary chairman for this district of a nation-wide movement to collect clean warm clothing and bedding for the cold Russians. They are badly in need of time pieces, too.

Tie up your bundle securely and deliver to the Thompson club room before the last of May—the sooner the better. The Woman's Book Club will send the collection to Plainview and Mrs. Walker will take care of it from there.

Enclose an encouraging letter if you feel like it. The postage will cost nothing and a sad heart may be lightened. The Germans have robbed the Russians of everything possible. Let's help our brave allies.

Apartment and Rooms Needed for Summer Session

Houses and apartments are in great demand for the opening of the Summer Session of West Texas State on May 27.

Calls are being received daily by the Housing Committee for places to stay during the session.

All citizens who have places available are urged to call Mrs. Geraldine Green or Mitchell Jones at once.

Prof. Clark Receives Honorary Music Degree

WALLACE R. CLARK

Professor Wallace R. Clark has been selected by the Southern School of Fine Arts, Houston, Texas, to receive the highest honor they can bestow in recognition of special services in the field of Fine Arts. The Honorary Doctor of Music Degree will be conferred upon him at their annual Commencement exercises on May 29, 1943.

In the letter which President Homer F. Springfield wrote Mr. Clark, he stated that the degree is being tendered "in recognition of the contributions which you have made to music education in Texas."

The Southern School of Fine Arts is considered the leading school of its kind in the Southwest; its board of trustees honors only a very few persons as Mr. Clark is being honored.

In commenting upon the matter President Hill stated that he believed the immediate cause for conferring this degree is the work which has been accomplished during the last year by the Texas Association of Music Schools, under the presidency of Mr. Clark. The member schools have worked with the State Department of Education and with each other in finding solutions for many problems of accreditation and other standards in connection with music.

Demonstration of Drying Fruits and Vegetables Wed.

A demonstration on Drying Fruits and Vegetables will be given by Miss Frances Wilroy, County Home Demonstration Agent, Wednesday morning, May 19 beginning at 10 o'clock at the Council Room in the court house.

Anyone who is interested in this type of work is cordially invited to attend.

Mrs. J. V. Williams and daughter, Patricia Ann, spent Mother's Day in the home of her parents, Mr. and Mrs. T. I. Fulfer, at Miami.

Light Rain Over County Helpful

Only .36 of an Inch in Canyon, but Cool Wave Greatly Aided Wheat

A light rain fell over the county Saturday night and Sunday. The moisture amounted to only .36 of an inch in Canyon. Sections of the county received a little more moisture, while other sections received even less.

The rain Saturday night measured .20 of an inch, and showers during Sunday added .16 of an inch. The temperature dropped to 38 degrees above zero Saturday, and for 36 hours hovered near 42 degrees. The cool, cloudy weather of Saturday, Sunday and Monday increased the value of the moisture very materially. Had the sun been shining and the temperature high, little benefit would have been received from this rain. As it is, farmers report that the wheat has been considerably improved by the moisture, in spite of the small amount received.

The wheat outlook for the county ranges from very poor to good. Some farmers have lost a considerable acreage due to the green bugs and the continued dry spring. Others report that their wheat has not been damaged. The crop depends upon the weather of the next few weeks.

American Day to Be Observed as National Event

Next Sunday will be "I Am An American Day."

This day has been celebrated in Canyon for several years, with certificates being awarded to all young men and women who had become 21 years of age during the previous year.

Owing to the fact that so large a per cent of the young men of the county are in the armed service, there will be no official observation of the day in Canyon this year.

However, Dr. S. H. Condon, who has sponsored this day in years past, asks that all citizens reflect on the blessings of being an American and to give thanks on this national recognition day.

E. A. Rusk Died in Pampa; Funeral Was Held Here Tuesday

Elza Alfred Rusk, 70, died at a hospital in Pampa Saturday night. He had been visiting his daughter, Miss Madge Rusk, in Pampa for a few days before his death.

The Rusk family is among the pioneers of Canyon. The funeral was held Tuesday afternoon at 3 o'clock at the Baptist Church. Dr. Roy L. Johnson officiated. Interment followed in Dreamland Cemetery.

Survivors are three daughters, Miss Madge Rusk of Pampa, Mrs. Stella Young of Los Angeles, and Mrs. A. V. Peterson of Mission, Texas; one son, Ray Ford Rusk of Canyon; two brothers, Ralph of Trinidad, Colo., and H. B. of Hobbs, N. M.; and three sisters, Mrs. Cora Elkins of Duffau, Texas, Mrs. Minnie Shellnut of Canyon, and Mrs. Della Scott, Marryville, Mo.

Mrs. Annie A. Hale Died Here Saturday at Home of Daughter

Mrs. Annie Armstrong Hale, 61, died Saturday morning at 10:15 o'clock at the home of her daughter, Mrs. Arthur W. Harding. She had been in Canyon only two weeks.

The body was shipped to Glade-water Sunday and the funeral was held at the White Oak Church Monday. She was a member of the Baptist Church.

Surviving are two daughters, Mrs. Harding and Mrs. J. O. Lamar of San Francisco, Calif.; one son, J. R. Hale of Bakersfield, Calif.; two brothers, J. I. Fields of Atoka, Okla., and Milton Armstrong of Cement, Okla.

Commissioners Will Start Equalization

The Commissioners Court will start equalizing the tax renditions of the county next Monday.

The regular monthly session was held Monday, and not a single person appeared before the court with a request.

Rev. and Mrs. J. R. Bright of Muleshoe spent a short while with their daughter-in-law, Mrs. Houston Bright, Wednesday. They had been attending the Methodist Conference in Amarillo.

THE ALLIES PRESS ON

The smashing victory of the Allies in North Africa came much earlier than most people in this country thought possible. It was anticipated that the Axis would make a determined stand at Tunis and Bizerte, both of which were fortified so strongly that the Axis might have held out for weeks.

The Axis army is thoroughly and completely whipped.

The once powerful African Empire of Mussolini is now a memory. We wonder if the Muss does not now regret his ambitions and wish that he had never invaded Ethiopia. But it is now too late for his regrets.

The Russians are doing a good job of turning back the Germans in the Caucasus. It is reported that Hitler is preparing to make another great offensive against the Russians. He is believed to be massing fresh troops for a drive toward Moscow in June.

In the Pacific our troops are doing a good job of holding the Japs until we gather enough strength to make a smashing attack upon the Japanese islands.

The Allies have taken a terrible beating at the hands of the Axis. But the tide has now definitely turned. There is no question about the superiority of our air power; there is no question about our superior tanks and guns which are now in the hands of our troops. Our infantry showed that they know how to fight in North Africa.

The sore spot is on the ocean. The navy has been withholding the amount of sinkings as a result of the submarine campaign. The navy has not improved its reputation with the people by so many conflicting reports. But there is promise that the situation will be well in hand before the summer is over.

For the first time since the war started, there is bright hope that the Axis are definitely on the run on all fronts. Whether the war will be over in 1943, 1944, or 1945, there is no question about the results. The Axis will be thoroughly whipped, but it is distressing to think of the terrible cost of men and material that will be necessary to accomplish this.

It makes every American shudder to think of foolishness and waste-fulness of war. Just because one or two power-mad dictators decided to rule the world, the balance of us are caused grief, millions of men killed and crippled for life, and a loss of billions of dollars.

The big question is whether or not we will come out of this war with enough sense to forever put an end to the insanity of war.

The political muddle in Europe is amazing. No wonder Hitler found such easy prey in overrunning 13 nations. Frenchmen are still fighting among themselves rather than spending their energy in fighting the Axis. Poland is in a political

uproar. All of this plays into Hitler's hands. He will succeed to hold out so long as he can keep the Allies in an uproar and cause dissension in the ranks of his enemies. Poor old France fell because of this condition. Polish troops were informed by their generals that the German tanks were made of paper, and that their poorly equipped armies would be no match for the great Polish cavalry. Holland is about the only European nation without turmoil—but the Dutch failed to cut the dikes and drown Hitler's armies as they promised to do. No wonder all of this situation is so distasteful to Americans; no wonder so many feel that we have no place in the European political set up. But considering the fact that we are the greatest world power and the dictators would like to conquer us, there is nothing left for us to do but take our place as a world power and see to it that world peace is maintained after this war. Not a pretty picture, but a most realistic one, which we must face.

Will John Lewis call another strike when the 15 day truce ends? The President proclaims that the miners are now government employees and that men have never struck against the government. We are a little inclined to believe that the President is whistling in the dark. He is hoping rather than dealing with facts. The President asked the men to return to their jobs Monday of last week; Lewis told them to return Tuesday; the men returned on Tuesday. The President said there would be no more strikes, but several hundred miners have been out on strikes during the past week. The men as a whole put more confidence in the word of John L. Lewis than they do in the President. Lewis has been called a traitor and the strong arm of Hitler by every loyal American citizen. But he is still the strong man among the miners and they will stand by him for a decisive show-down.

Senator Grady Hazlewood has been sending weekly letters to all newspapers of his district regarding the work of the legislature. For the first time in his life, the Senator turned columnist, and performed a good job. The Senator tried to alibi for his writing, but there is no room for apology. The people of the district certainly appreciate his kindness in these weekly reports. The Panhandle is so far from Austin and too often the news reports on the legislature are so meager that these reports of our Senator are of great value to the people. The News hopes that Senator Hazlewood will stand for re-election next year and will continue his good work in sending weekly reports to the newspapers.

Congress is still flitting with the idea of forgiving a large part of the 1942 income. It seems that this fellow Ruml has a plan which is catching the popular fancy. He is one of the nation's largest income tax payers. Forgiving 1942 taxes for the big boys so that they could get in shape to evade the 1943 tax doesn't make sense. We are just an old country boy, but we cannot see why in heck any one should be forgiven a just debt to the nation when the nation is 125 billion dollars in the hole, and we are burning up millions of dollars daily in the war.

The News is offering an overdue explanation: Last month we printed two pages of pictures of children, and offered prizes for the first correct answers to the names of the children. No list turned in was complete and no list was accurate. As a matter of fact several of the children have not yet been identified. These pictures were used from 10 to 12 years ago, indicating just how fast children of yesterday become young men and young women of today.

Investigations in legislatures and Congress usually make you want to hold your nose and wonder why the waste of time and money. But under the present system of independent bureaus, investigations are necessary. It is getting so that

every bureaucrat feels that he is independent of any sort of regulation or supervision and therefore runs his bureau as he sees fit. More investigations are needed to keep our government in check.

If Congress passes the Connally bill, John L. Lewis will be almost wholly responsible for it. The people of this nation are becoming tired of Lewis playing into the hands of our enemies, and therefore the demand that legislation be passed to jail those who are responsible for strikes in times of national emergency. The Connally bill should be passed.

Every legislative session ends without action on important bills. Election reforms and re-districting are two of the major bills which fell by the wayside during the closing days. East Texas members of the legislature are solidly opposed to such bills, and while they hold the balance of power there will be no such reforms.

History of Clubs Placed in Museum

There have been women's clubs in Northwest Texas since 1889 and perhaps longer. Last year Mrs. J. A. Hill of Canyon and Mrs. L. A. Wells of Amarillo were selected to compile a history of club activities in the Seventh District. This district is comprised of forty-nine counties beginning with the north line of the Texas Panhandle and extending south as far as Snyder.

At a meeting of representatives of the Seventh District held in Amarillo last Tuesday, it was voted to place the history in the Panhandle-Plains Museum which already has in its files a large number of club yearbooks. It is believed that at some time some one will write a master's thesis or a doctor's dissertation on the place of women's study clubs in the development of Northwest Texas. The material which the Museum will be invaluable when such a project is undertaken.

At the same meeting, it was voted to place in the Museum two loving cups which have been the prizes for many contests in the club meetings of Northwest Texas. These cups have been held by clubs of towns on the Northwest, Central, and South Plains having been won through the excellence of the choruses which these towns entered in contests. The contests have been discontinued for the duration of the war and the cups will be placed in the Museum for safe keeping and for exhibit purposes.

The young bride was asked what she thought of married life.

"Oh, there's not much difference," she replied. "I used to wait up half the night for George to go, and now I wait up half the night for him to come home."

Tongue may be made the center of many delicious and hearty meals. Beef and veal tongue are desirable from the standpoint of size, while pork and lamb tongues are small and usually are sold ready to serve. Tongue is sold fresh, pickled, corned, or smoked.

Further directions for the preparation of tongue are found in the following recipes.

Jellied Tongue

(Use beef or veal tongue)

1 tongue
Water
1 large onion
1 tbs. whole cloves
2 bay leaves
2 tbs. gelatin.
Wash tongue and cover with water. If fresh tongue add 2 teaspoons of salt. Add onion, cloves and bay leaves. Cover and simmer until tender, allowing one hour to the pound. Remove skin and trim. Place in mold. Strain liquid and dissolve gelatin in it. Bring liquid to boiling point and pour over tongue. Allow to cool. A four pound tongue will serve 12.

Tongue with Rice and Spinach

1 fresh beef tongue or
2 fresh veal tongues
Water
2 teaspoons salt
3½ cups cooked spinach
2 cups cooked rice
Cover tongue with water and add salt. Cover. Allow to simmer about one hour to the pound, or until tender. Drain and remove skin. Arrange on platter with spinach and rice. Four pounds of tongue will serve 12.

Braised Tongue with Vegetable Gravy

(Use beef or veal tongue)

1 fresh tongue
Water
2 teaspoons salt
½ cup diced onions
1 cup diced carrots
¾ cup diced celery
3 tablespoons flour
1½ cups liquid in which tongue was cooked
1 teaspoon salt
¼ teaspoon pepper
Wash tongue and cover with water. Add salt. Cover and simmer until tender, allowing one hour per pound. Trim and remove skin. Slice tongue and place in pan with diced onions, carrots and celery. Make a smooth paste of flour and small amount of water, gradually adding liquid and seasonings. Pour sauce over tongue and vegetables. Simmer for 1 hour. Serve with potatoes boiled in jackets. Four pounds of tongue will serve 12.

Why butter won't melt in Africa

AS EVERYBODY KNOWS, butter will melt unless you keep it cool. And the African desert isn't cool.

Nevertheless, the Americans who are fighting there carry butter—and it doesn't melt.

It doesn't melt because it's fortified with a fat which has a high melting point. The result is a butter which can be packed in a can, like beans or beef, won't melt, and will keep indefinitely.

You might think our soldiers could get along without butter. They could. But—they don't have to! Butter is good for them—and Uncle Sam is seeing to it that American soldiers are the best-fed, best-equipped, best-cared-for soldiers in the world!

Of course, it takes money to do that. So much money that, to help pay the bill, every one of us must loan every dollar we can to Uncle Sam through War Bonds.

War Bonds are a swell investment. They pay you back \$4 for every \$3. Save part of every paycheck with U. S. War Bonds!

Raising Chickens?

In the closing days of what should ordinarily have been an uneventful session, members are becoming panicky over the consideration of bills which necessarily must die on the calendar for the want of time. Although there were few bills of general public interest, some of the most controversial and bitterly contested legislation came before us.

Killed in the House was the Aviation Bill which would have placed the industry in Texas under the Railroad Commission. Opponents contended there were no airplanes available for any group at this time and it was untimely to tie down with state regulations and red tape an industry where during one hour a person would be flying in Texas and the next he could be in some other state—that it would so surround private and commercial flying with red tape that it would be impossible to operate.

Passed by both houses of the legislature and on the governor's desk is the Chiropractor Bill which licenses and regulates chiropractors. This legislation was termed as the most politically dangerous legislation up for consideration in years. Opponents contended that to license the chiropractors would seriously endanger public health because it would license a profession with an inadequate knowledge of diseases and human ailments. Proponents advanced the argument that there is not now any regulation, and that lawyers, barbers, farmers, or any person whomsoever can engage in chiropractic treatment without having training or qualifications—that it would be better to have some regulation than no regulation at all. Proponents also called attention to the fact that under the terms of the bill passed chiropractors must now have a two-year college course and, in addition thereto, four years of study in the basic science of anatomy, physiology, and other subjects. They also called attention to the fact that the bill makes it a crim-

inal offense for any chiropractor to treat any infectious or contagious disease or to practice medicine or surgery.

The real battle is now going on between the free conference committees on the departmental, higher educational, and rural aid bills. A rural school superintendent from the Panhandle was amazed when he heard a leading member of the Senate refer to the rural aid bill as being one that "throws our money away." The statement was made in the course of an argument over raising the salaries of rural school teachers who are now abandoning the profession in wholesale fashion because of low salaries. The subcommittee of the departmental appropriation bill reduced the appropriation for the Liquor Control Board so that more than 100 enforcement officers must be cut off the pay roll. This, even though the department is self supporting by reason of revenue from fines collected. The only answer to legislative action such as this is that Texas is a larger State with a great variety of sentiment thus expressed by the legislature.

Buttering a Nazi's Bread

(U. S. Navy Photo From NEA)

A wounded Nazi U-boatman gets a little chow help from a U. S. Coast Guardsman after being captured off the Carolina coast with 32 kameras by the Coast Guard cutter Icarus. From his grin, you gather he knows which side his bread is buttered on now.

I Give You Texas

By Boyce House

"Come into office, prepared to leave for Arkansas."

So read the telegram from the managing editor of the old Fort Worth Record of which I was staff correspondent, with headquarters in West Texas.

And that was the beginning of probably the most enjoyable trip your columnist ever made—back in February, 1925. First stop was Texarkana, the city that sits astride the boundary of Texas and Arkansas, where I was told the intriguing story of a man who was "wanted" in one state and was arrested in the other. Extradition would be slow and expensive, so he was taken for a walk along State Line Avenue and was given a sudden shove, which landed him in the other state where two officers "happened" to be right on the spot and he was grabbed before he could scramble back across the line!—(or so I was told).

Next place visited was El Dorado where an oil boom was in progress. Then a trip up the mountainous western side of Arkansas in the course of which the train made a 15-minute supper stop. Not wanting to miss the train, I pitched in and hastily ate a salad, soup, half a fried chicken with potatoes and corn, and was just starting on a dish of ice cream when the conductor poked his head in the door of the Harvey House and said, "You have now been eating five minutes." (No doubt I had set some sort of mark for devouring nine-tenths of a full-course dinner).

Visited Fort Smith and was told about the days when that was the law center for Indian Territory and the "hanging judge" would sentence two or three outlaws to death in a day. In fact, the executions of seven criminals were to take place in one day and the hangman was elated as he would be setting a record for the United States but, at the last minute, one of the men was granted a reprieve and so the executioner got to hang only six and he was so mad about it that he wouldn't eat any supper that night!

On into Fayetteville and Eureka Springs in the picturesque Ozarks; Hot Springs, with its palatial bath houses lining the principal thoroughfare, and then to Piggott, my birthplace. I saw my grandfather for the last time—in some ways, the most remarkable character I have ever known; and looked too for the last time upon the old log cabin where so many happy vacation days of boyhood had been spent—it burned down two years ago.

That same day, I left Arkansas, cut across a corner of Missouri, and next morning landed in Memphis, Tenn., and there I saw C. P. J. Mooney, my first editor, for the last time; hopped down to Coldwater,

Miss., where I had attended school in the seventh grade—(my last sight of that town, which soon is to be covered with water in a river project); then back to Memphis that night and boarded a Texas-bound train—having jumped, in 24 hours, over State lines like a small boy playing leap-frog—Arkansas, Missouri, Tennessee, Mississippi, back to Tennessee and then to Arkansas. Rolled into Fort Worth after exactly four weeks, without having had any definite schedule but never missed a train or a bus. Had set out with "expense" money and turned back \$1.20 to the newspaper cashier. (Any newspaperman will tell you that's unprecedented).

Yes, that trip through the "Wonder State" of Arkansas was filled with memorable memories.

CARD OF THANKS

We wish to express our appreciation for the kindness and sympathy shown us during the illness and death of our loved one.

Mrs. Early Davis and family.

THE PIED PIPER

Griffiths was the father of twelve children and he decided to take them all to the seashore. They set off, reached the station, got their tickets, and were about to enter the train when the proud parent was touched on the shoulder by a policeman.

"What have you been doing?" the constable demanded.

"Me?" Why nothing!" stammered the surprised man.

The policeman waved his hand toward the family.

"Then why," he asked, "is this crowd following you?"

KNEW HIS GENERALS

The teacher was greatly pleased to find her class so alert. "Who," she asked, "was the great French general in the World War?"

"General Foch," was the reply. "Who was the great German general?"

"General Hindenberg," another replied.

"Who was the greatest of all the generals—an American general?"

"Two of them," replied Bill.

"Name them," said the puzzled teacher.

"General Motors and General Electric."

CHURCH WOMEN HAVE MEETING THURSDAY

The Council of Church Women had the May Day meeting at the Christian Church last Thursday morning at 10:30.

Rev. Joseph Findley led the devotional, Christian Faith. "The Christian Faith is based upon something too good not to be true." The first speaker was Mrs. Robert Jones who talked about "Personal Faith and Experience." "We must have self-confidence, for it is very essential, but we must have more than self-confidence—we must have faith in our neighbors and in God," stated Mrs. Jones.

Mr. W. A. Warren spoke on the subject of Community Issues. "The Church is doing a great part in social problems, but it must do more. The greatest responsibility is in the home."

After a brief business meeting, luncheon was served in the basement of the church. The next meeting will be held at the First Baptist Church on June 29.

HOME DEMONSTRATION COUNCIL MEETS

The Randall County Home Demonstration Council met in the council room of the court house Saturday afternoon, at 2:30 o'clock, May 1. Vice-chairman of the council presided. There were fourteen members present, representing six clubs.

The recreational committee announced the annual May Tea to be held May 15, at the Thompson Club room. All club members of the county are invited, and any other visitors that are interested will be welcomed. Each club is to furnish two dozen cookies, and two dozen sandwiches.

The finance committee has planned a rummage sale to be held June 7th in Amarillo. Each club member is to furnish five articles for this affair. The Connelly 4-H club girls were granted permission to sponsor a table at this sale. The proceeds from this sale will be for council expenses of sending three delegates to the state meeting of the Texas Home Demonstration Association which meets in the summer. During the month of May Miss Frances Wilroy, Home Demonstration agent, is demonstrating "Drying of Fruits and Vegetables." Any one interested in this demonstration can get in touch with their local club as to the time and place of the demonstration, and the club members will be glad to have anyone in their community.

Discussions Given of Questions of Day at Rotary

J. D. Barker was in charge of the Rotary Club program and led in impromptu discussions of leading questions of the day.

Stuart Condon was asked to give his opinion as to the results of the African campaign. He stated that the result of this campaign proved that Germany did not have all the scientific knowledge in the world; that our war machines were the best. The opening of the Mediterranean will shorten the supply route; may induce Turkey to join the Allies; should eliminate Spain as a possible Axis partner. The greatest result will be on the people of America; we now realize the terrific striking power of our air and land forces, and all Americans, even the miners, should be induced to put everything they have into the war.

Chester Pierle was asked about China and how long she could hold out. His reply was: "Forever." He believed the plan to finish up in Europe and then tackle Japan with full strength was wise. Opening the Mediterranean will mean shorter supply line to Iran and India, and may make it possible to open the Burma Road. China will get along. Famines are usually localized. The Japs hold a small part of the land, but through control of transportation they command two-thirds of the area and three-fifths of the population. Five hundred planes with supplies would hold the Japs.

W. H. Upchurch discussed the crop and labor situation. Congress took away funds for handling the labor situation, and then turned the job over to County Agents, with no money for operation. As to crops, Mr. Upchurch stated that the 3 million bushel wheat crop of Randall county last year had been reached only twice before. The average yield last year was 17.3 bushels per acre, but the long time average has been 8 bushels. He believed that the wheat crop would be 1,600,000 bushels this year, or about a normal yield. He predicted that the side which runs out of gasoline first will determine the end of the war.

Clyde Warwick was called upon to discuss Selective Service. With 575 men inducted in the armed service from Randall county the local board faces the situation of taking married men. General Hershey recently notified local boards to make no recommendations regarding the discharge of farm boys, but now applications are being received thru state headquarters regarding farm boys. The job of filling calls is becoming harder each month as the number of men termed essential by Selective Service is enlarged.

Irving Tolzien of Amarillo believes that Rotary Clubs may do much for the young men in service by making Honorary Rotarians of the sons of Rotarians for the duration so that these boys may attend Rotary meetings in England, Africa, Australia or wherever they may go. Visitors were: Mr. Tolzien, Oran Thomas, E. Kancher, F. R. Barnes, Arch Hunsley, N. F. Nelson, H. C. Vincent, Major John E. Buxton, all of Amarillo; Dr. John W. Iliff of Philadelphia; R. C. Jeffers of Canyon.

A colored pastor was exhorting his flock. "Ah tells you dat among de wicked which passes on to de nex' world, dey will be a weepin' and a wailin' an' a gnashin' of teeth."

"An' how 'bout dose what haven't any teeth?" asked a dark Thomas.

"Ain't you heard?" retorted the Reverend. "Teeth will be provided."

"This gas rationing has hit my uncle hard. Before it started he owned ten gas stations and not one of them had a roof."

"No roof? What was the idea?"

"No overhead."

Magistrate: "Occupation?"

Prisoner: "I am a magician. I can make things disappear."

Magistrate: "I'm a magician too. I can make you disappear—for 30 days."

Texas blue bonnets are in season. Down state the rocky hills and draws are covered with them and they can be grown here. Those in lower altitudes bloom only in May but the few that are on W. T. campus bloomed all last summer. Do you know this legendary origin of them? A terrible plague was abroad in the land. The Indian chief called for a beautiful, sinless maiden to offer herself as a sacrifice to the Great Father in an effort to appease his wrath, and thus remove the plague. One was found and as she ascended the hill where the altar was prepared her blue bonnet fell off. The next morning when her friends followed her path up the way they found that little blue bonnet like flowers had sprung up over night. The plague subsided and we have our lovely fragrant state flower, the blue bonnet. Is it any wonder that all real Texans love it? We women gardeners would do well to make ourselves some blue bonnets and wear them.

The columbines are coming into their glory now. I wonder how many different kinds and color combinations there are. They grow nicely here without much care. They like a cool shady place. Mrs. Jack Taylor has some double blue ones.

Have you a large enough space to plant a few sweet potatoes? They are full of vitamins, being about 39% starches and are high in proteins. They are usually considered a sandy land product, but if the soil is spaded deeply and loosely and the potato slips are given plenty of room, they will produce fine food even in our heavy soil. The Porter variety is recommended for this particular locality.

Crowder or cream peas, black-eyed peas, the edible soy beans and pinto beans should have a place in every garden. They are each good when fresh, canned or dried and will take the place of meat. It is about time to plant them. They will grow in most any ordinary soil.

The wild plum thickets are full of plums. We may have to depend on them to a great extent this year for our jellies and jams, since the tame plums were killed by a freeze. Do you remember the fun we used to have gathering wild plums in the summer and nuts in the fall? These were simple gala occasions. Simple pleasures afford the most genuine happiness, do they not? The writer knew what he was saying when he wrote, "Simplicity is the outgrowth of Culture." Think about it.

Visit Our Garden

It would be fine if all of us could go to our gardens and orchards to gather fine fruits and nutritious vegetables as we needed them.

But we have to rely on our Grocer to assemble our every day's needs. Bellah's have a pride in our dependable garden. Here you will always find the best that the gardens and orchards produce—and you do not have to worry about rationing—the points are all free—and foods are nourishing.

Help solve the ration problem by visiting our garden every day. And when it comes to CANNING you will be able to get the best at Bellah's. Bring us your canning sugar certificates.

Prospects Good Summer Session

One Semester of Work May Be Completed During Summer Session

Prospects for the Summer Session are excellent, if inquiries regarding work and living places are any indication.

Despite travel difficulties, the offices of registrar and deans and housing committees were full of out-of-town people last Saturday. They were consulting about summer programs, and inspecting living quarters.

Cousins and Randall Halls, and the smaller co-operative houses have more reservations than they have had at the first of May in any recent year. It is expected that the attendance of women will be as large or larger than usual; there will be fewer men enrolled in regular courses, but the Army Training Detachment of 400 men will keep the campus from seeming like a woman's college.

A plan has been worked out so that those people who stay at Randall Hall can do so on either a straight room and board proposition or on a co-operative basis. A substantial saving is possible on the co-operative plan, but many summer students prefer to devote their entire time to their class-room activities and outdoor recreation.

Cottages and apartments are in demand for the fifteen weeks' summer session.

It is believed that the freshman class will be larger this summer than for many years. Federal and state authorities are urging high school graduates to attend summer sessions; boys are being advised to

get as much of their college education as possible before the time comes for them to enter military service. A full semester's work may be done during the fifteen weeks which will end on September 4, still allowing a short vacation before the long sessions of colleges begin.

Men who are enrolled in the first term of the summer session and who are called into the armed services, will receive credit on the basis of the grades they have made, any time after four and one-half weeks have passed. Those who are called into service before four and one-half weeks have passed will have their fees returned. In either case proof of induction must be furnished the Business Office.

The last six weeks term will be handled on a comparable basis. At a meeting of the Administrative Staff when this matter was discussed it was stated that since all colleges are requested to provide a semester's work during the summer session, it is entirely logical to handle the matter of credit for men who enter the service on the same basis as in the long session.

Mrs. Coffee Will Teach at W. T.

Mae Slack Coffee (Mrs. Herschel Coffee) will be a teacher of piano in W. T.'s Music Department this summer. Mrs. Coffee is a graduate of West Texas State College and has done extensive work in the field of music in the University of Southern California. She was a member of the Music Department for a number of years and this summer will return to teach the work that during the regular session has been handled by Mrs. Houston Bright. Mrs. Bright will spend the summer in North Carolina where her husband, Lieutenant Bright, is stationed.

Canyon Air News

Hello Folks:

Well, our new program has been under way for over a week now, and except for a forced landing—from which they didn't even have to walk home—there have been no mishaps. Eighty cadets means eighty flights a day, and we believe that is a record, and a good one.

We have augmented our staff—mechanics' helpers, and four new instructors: W. R. Harnagel, of Borger; H. B. Gates, of El Paso; N. S. Lawler, of Abilene; and A. J. Eder, formerly of Iowa. Our group is a very congenial one, yet we have heard less "hanger-flying" here than anywhere else we've been. Our guess is that after a hard day's work, our instructors are all talked out, which, you can believe us, is a very unusual case; for flyers—like bridge-players, are never lacking in topics for conversation.

For those of you who are interested in forming another flying club, we still have two and one-half hours of daylight, that is before sundown, to do quite a bit of flying, and we would be very glad to have you with us. So let's hear from you. Until next week—we remain, The Gang in the Pilot House.

The new secretary was on the carpet. "Miss Jones," said the boss, "I may say that you're a very attractive girl." "Really!" said the typist blushing. "You dress well; your voice is well modulated; your deportment is also beyond reproach." "You really mustn't pay me so many compliments," she protested. "Oh, that's all right! I only wanted to put you in a cheerful frame of mind before taking up the matter of punctuation and spelling."

ORDINANCE NUMBER 94
AN ORDINANCE PROHIBITING DOGS FROM RUNNING AT LARGE WITHIN THE CITY CORPORATE LIMITS OF THE CITY OF CANYON, TEXAS; PROVIDING FOR A DOG POUND; PROVIDING FOR THE REDEMPTION OF DOGS AND THE DISPOSAL OF DOGS IF NOT REDEEMED.

Be it Ordained By The City Commission of the City of Canyon, Texas:

Section 1. That hereafter it shall be unlawful for any owner or keeper of any dog within the corporate limits of the city of Canyon, Texas, to permit such dog to run at large within the corporate limits of the said city of Canyon, Texas.

Section 2. It shall be the duty of the police or his duly authorized representative to capture and impound in a pen provided for that purpose any dog found running at large in the City of Canyon, Texas. And said policeman shall post a notice at the door of the city hall describing such dog and advertising the sale of said dog for forty-eight hours.

Section 3. The owner of any dog so impounded may redeem the same by paying the sum of One Dollar, as impounding fee, and twenty-five cents per day for feed and care of said dog. If the dog is not redeemed it shall be sold as advertised.

Section 4. If an impounded dog is offered for sale and no one shall bid an amount equal to the impounding fee and the fee for taking care of said dog; the dog shall be bid in by the city and killed.

Section 5. It shall be the duty of the chief of police to see that this ordinance is enforced.

Section 6. This ordinance shall be in full force and effect immediately upon and after its passage and publication as provided by law.

Passed and Approved this 3rd day of May, 1943.

(Seal) W. A. WARREN, Mayor, City of Canyon, Texas.

Attest: Harvey Cash, City Secretary, City of Canyon, Texas.

Ardis Patman Guest at White House

Ardis Patman, '38, had dinner at the White House Sunday. This is the way it came about. Mr. Patman is a patient in a convalescent ward of the Walter Reed Hospital in Washington, D. C. A few days ago he was told that the ward would have a distinguished visitor. When the visitor came it was Mrs. Frank-

lin D. Roosevelt. She chatted with Mr. Patman for some time and then followed the invitation.

Before entering military service Mr. Patman was a member of the modern language staff and did some teaching in the department of English. Since his graduation from W. T. he has studied in The University of Mexico. When he first entered the army he was stationed at Fort Riley, Kansas.

You'll have touring fever. Will you have a car?

Even the wizard auto industry can't switch from arms to autos overnight. After the Axis cracks, much time will pass before designers, engine builders, plastic-makers, accessory plants, glassworks, and the great assembly lines can again bring you a better new car.

Probably you're pining to win yourself peace by setting out as soon as you can for Grand Canyon, perhaps—or for Bigtown or the Coast—or for the old folks whom you haven't seen since rationing started. The car that will be ready first—50 chances to 1—is your all-essential present car, encouraged to last its limit by Conoco Nth motor oil... oil that OIL-PLATES!... oil that's the foe of engine acids!

War didn't first bring these acids. Ordinary engine combustion has always bottled acids inside, as your engine stopped. When stops were brief and your engine heated up fully on long runs, the acids were not so harmful. But now limited speed, comparative coolness and long lay-ups invite acids to bite hard and corrode metals.

Corrosive air and water, you know, are checked by chromium-plating. And corrosive engine acids are checked by OIL-PLATING, closely deposited on inner parts by patented Conoco Nth oil, with its added modern synthetic inducing a sort of "magnetism." This can long maintain OIL-PLATING on surfaces that you want shielded from acids and depreciation. Don't wait... OIL-PLATE! Get Nth oil at Your Mileage Merchant's Conoco station. Red stamp G (meats, fats and cheeses) becomes valid May 9; H, May 16; and J, May 23. All expire midnight May 31.

INSURANCE FOR SOLDIERS

All soldiers can get financial protection through the national service life insurance program, if they act before midnight of August 10, the War Department has announced. Maximum policy is \$10,000. The payments will be made to beneficiaries only in monthly installments.

TOBACCO CAN BE SENT TO PRISONERS

U. S. War prisoners and civilian internees held by Germany and Italy can receive cigarettes, cigars, smoking tobacco, or chewing tobacco sent by relatives and friends under a program worked out by several government agencies and the American Red Cross. The plan will be extended to include persons held by Japan whenever facilities are available for routing the products to them. Under the program, the next-to-kin of each identified United States war prisoner and civilian internee will receive (without asking for it) two tobacco labels every 60 days. These are to be forwarded, with a money order, to a tobacco manufacturer, who will send the tobacco. No postage or federal excise tax need be paid. Each label is good for three cartons of cigarettes, or twelve packages or one carton of two-ounce packages of smoking tobacco, 100 cigars, or approximately 24 ounces of chewing tobacco. Smaller amounts or mixed packages cannot be ordered.

CROP CORPS CERTIFICATES

Certificates of service will be awarded to the 3,500,000 persons who work on farms this year in the U. S. Crop Corps, and to those who work in canning and other food processing plants, the War Food Administration has announced. The certificates will be presented "for patriotic service on a farm or in a food processing factory" and will bear the signatures of Chester C. Davis, War Food Administrator; Paul V. McNutt, chairman of the War Manpower Commission, and the State Director of Agricultural extension in each state.

COAL SUPPLY IS LOW

Stocks of bituminous coal are not large enough to tide the nation over any prolonged suspension of mining, solid fuels administrator Harold L. Ickes said recently, as he urged all users to conserve coal.

HELP STOP THEFTS AND FORGERIES

To safeguard dependents and others who regularly receive government checks the following procedure is urged by the U. S. Secret Service to help stop thieves and forgers—(1) some member of the family should always be at home when checks are due to be delivered; (2) all mail boxes should be equipped with a lock, and the individual's name should be printed clearly on the outside of the box; (3) checks should be cashed in the same place each month, making identification easier; (4) checks should not be endorsed until you

are in the presence of the person who is to cash it.

SERVICE BARS FOR CIVILIANS

For the first time, civilians may earn an official service bar similar to the campaign bars of the armed services, according to a recent announcement of the Civilian Defense Director. Six distinctive bars for service ranging from 500 to 5,000 hours will be given to Civilian Defense Volunteers. All volunteers may qualify for the awards.

PROSECUTE POULTRY RACKETEERS

New court actions—78 of them—against violators of price ceilings on poultry were started between April 15 and April 30, in OPA's intensified drive to stamp out black markets. Of the 88, 72 were injunction suits and 16 were criminal prosecutions. In addition, the enforcement division issued statutory warnings—first step toward license revocation—to 15 other poultry sellers.

MAXIMUM PRICES ON POULTRY

Poultry raisers who sell live birds at their farms must observe the maximum prices OPA has set for the nearest city, town, or village. Ceiling prices for 56 representative cities were recently issued. For broilers, fryers, roosters, and light capons the prices range from 27.5 cents per pound for Chicago, to 29-31 cents per pound for Miami, Florida.

MORE COTTON CLOTH

Cotton fabric production will be increased by about 220 million yards annually without the use of additional facilities or raw materials, as the result of a recent WPB order. Fabrics will be lighter and less tightly woven, but serviceable and capable of meeting all military and essential civilian needs.

RURAL PHONE BATTERIES

A few dry-cell batteries for maintaining telephone service in rural areas have been provided for distribution. Distributors can get these batteries by submitting from PD-1X to the wholesale and retail trade division of the War Production Board.

LUGGAGE RESTRICTED TO SEVEN TYPES

Luggage will be made only in seven basic types and will be drastically limited in size and design after July 1 by a recent order of WPB. All leather luggage is out for the duration. Canvas, cotton duck, other fabrics, and wood will be used as substitutes when they are available.

SOLDIERS GET LOTS OF MAIL

United States soldiers overseas receive over 20,000,000 pieces of mail a week, or an average of fourteen pieces per soldier. This is four times as much as the A. E. F. got at the peak of the World War. Twenty per cent of the mail sent overseas is V-mail.

WEA TO PURCHASE SEED

Pasture and legume seeds including blue lupine, white clover, wild winter peas, kobe lespedeza, and common lespedeza, Tennessee 76 lespedeza, sericea lespedeza, and yellow hop clover, will be purchased from farmers by the Commodity Credit Corporation, under a new program just announced by the War Food Administration.

REVISED FEED PRICES

Savings to farmers are expected to result from OPA's revision of retail prices of animal and poultry feeds. Previously, the retailer has been allowed a fixed mark-up of \$7.50 a ton on all kinds of feeds. Now, feeds have been classified, and

there is a schedule of mark-ups ranging from \$5.50 to \$10.00 a ton.

SEWAGE FACILITIES FOR HOMES

Home owners can now obtain sewage facilities by having their municipal authority write a letter to WPB. The letter must certify that the work is properly authorized. That it will require less than \$1,500 for underground, and less than \$500 for above-ground construction.

CEILING ON SAUSAGE

Frankfurters, bologna, and fresh and smoked sausage, which make up about 60 per cent of all sausage sold in this country, are now under wholesale ceiling prices fixed by OPA. Cents-per-pound retail prices will be established by OPA in the near future.

BUTTER, CHEESE ORDERS

Fifty per cent of all butter and 70 per cent of all cheddar cheese produced in May, June, and July must be held for government uses, the WPA has announced. Thirty per cent of butter and 50 per cent of cheese has been required for government use since February.

HOSPITALS FOR CIVILIANS

Despite increasing military demands for hospital equipment and medical supplies, substantial efforts are being made to maintain the health of civilians. Since January 1, 1942, construction of 260 new hospitals, or extensive additions to existing hospitals has been approved by WPB. Beds will be increased by 700 leaving an estimated shortage for civilian use in war areas of about 14,000 beds.

NO QUOTA ON USED TRUCK TIRES

An eligible truck operator who is unable to get rationing certificates for new tires because his rationing board has exhausted its quota can obtain certificates for used tires instead, according to OPA. Local boards have been authorized to issue used truck tire certificates without regard to quota restrictions.

CHICORY FOR COFFEE

Consumers who like chicory in their coffee are assured of a supply by a recent order of the War Food Administration. Because demands for this product has increased since coffee rationing, processors are now allowed to put 25 per cent of their bulk chicory in packages for individual consumers.

NEW AGENCY FOR CIVILIANS

The Office of Civilian Requirements, empowered to provide civilians with essential goods and services, has been set up in WPB. The new agency supercedes the Office of Civilian Supply. "It shall be the objective of the War Production Board," the order states, "to provide consumer goods and services adequate to maintain essential civilian life and the highest productive efficiency."

TRAFFIC DECLINES

Traffic on rural roads in the eastern rationed area was 48 per cent less in March than the same month of 1941. It was about 37 per cent less in the rest of the country, according to the Public Roads Administration of the Federal Works Agency. Traffic in February was off 52 per cent in the east and 35 per cent elsewhere, compared with February, 1941.

SHRIMP PRODUCTION DECREASES

Canned shrimp produced in Gulf and South Atlantic states during the first quarter of 1943 was about 20 per cent less than in 1942. The decrease in shrimp production is largely due to manpower shortages in both fishing and processing.

QUOTA INCREASED REVOKED

Because a disproportionment amount of beef is going into civilian channels depriving the armed services of an adequate amount of beef, the War Food Administration has revoked all temporary beef slaughter quotas and temporary increases granted since April 1 for the month of May. Butchers or local slaughterers who were slaughtering in 1941 and did not ask for an increase are not affected by the order.

PLANE OUTPUT CLIMBS

WPB Director Donald Nelson reports that 6,200 war planes were produced in March.

It's really been a PROBLEM

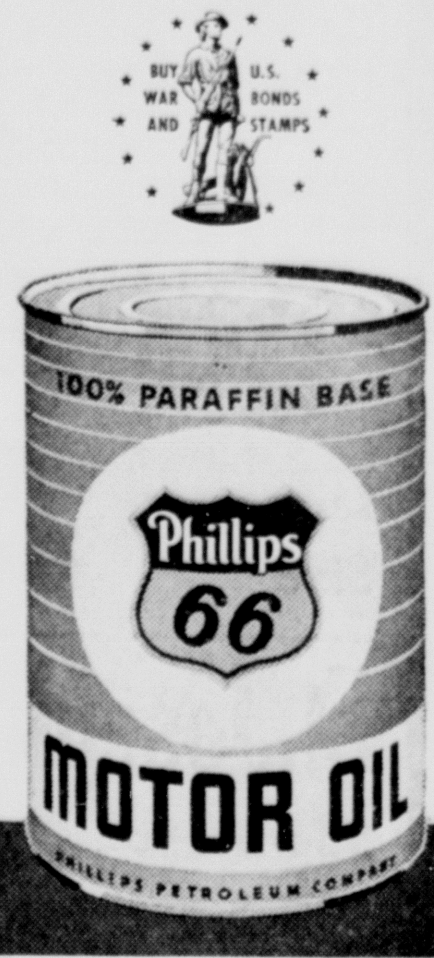

IT SAVES A LOT of head-scratching to have facts instead of guesses, when you are choosing a motor oil to protect and preserve your car for the duration.

That is why we give you these facts: We produce a number of oils at a variety of prices to meet the differing demands of car owners. Some want a low-priced lubricant for very old cars, some want a medium-priced product, while to still others cost is no object.

Of all these oils, we have concentrated on one as our best. The crudes which go into it, the extra care in processing, the results it gives; all enable us to say frankly and simply, Phillips 66 Motor Oil is our finest quality... the highest grade and greatest value... among all the oils we offer to average motorists.

Never was it more important to use good oil. So it is good sense and good saving to ask for Phillips 66 Motor Oil when draining winter-worn lubricant, or when making the recommended every-two-months oil change.

CARE FOR YOUR CAR... FOR YOUR COUNTRY

IT'S PHILLIPS FINEST QUALITY

Baker and Hooten Will Speak

Dr. C. E. Hooten, pastor of the Tyler Street Methodist Church in Dallas, will be the baccalaureate speaker at 11 o'clock Sunday morning, May 23. The commencement speaker for Sunday night at 8:30 o'clock, will be Judge Weaver H. Baker, chairman of the State Board of Control at Austin.

Judge Baker is a former law partner of Governor Coke Stevenson. He was a student at the University of Texas and is a graduate of the law school there. As chairman of the Board of Control, he has been director and supervisor of the eleemosynary institutions in the state. He has charge of the making of the budgets for the whole state government.

Dr. Hooten was a pastor in Plainview before accepting his present position in Dallas.

Plans are being made to have both the sermon and the commencement exercises in the Administration Building Auditorium.

Fountain Pen Given Museum

A fountain pen which was used in writing shorthand notes of reviews with many prominent pioneer settlers of the Panhandle has been given to the Panhandle Plains Museum by Mrs. T. V. Jackson who, as Flora Dorris, often helped to get valuable records for the society. Mrs. Jackson now lives at Bend, Oregon.

Among those whose stories she took while working with J. E. Hales, then field secretary for the Historical Society, were Charles Goodnight, Bones Hooks, Mark Huselby, and many others, some of whom are no longer living.

Jowell Items

The Jowell community received a good rain Saturday night.

Mr. and Mrs. W. F. Bonds and family spent Sunday with Mrs. Bonds' mother, Mrs. Mattie Lee Hill of Plainview.

Mr. and Mrs. Earl J. Davis spent Sunday with Mrs. Davis' mother, Mrs. Henry Burtz of Canyon.

Louis Hinders, Jr., visited his parents a few days last week.

A picture everyone should see, "HITLER'S CHILDREN." No advance in prices! Coming this month at the Olympic. 944

from the nation's household during March amounted to 7,312,617 pounds or 43.9 per cent of the national quota. Texas turned in 294,833 pounds; Louisiana, 33,478 pounds and Oklahoma, 59,022 pounds, for a total of 387,333. The quota for the three states was 990,000.

SAVE FOOD... it's as important as bullets.
Plant a victory garden and preserve your surplus.
Put up as many fruits and berries as possible. Your Gas range makes canning easy.
Cook only the amount of vegetables needed. Serve left-overs creamed, in casserole dishes, or cold—in salads.
Cook vegetables and fruits in their skins whenever possible—and over a low Gas flame.
Roast meats at low temperature in your Gas oven to reduce shrinkage. Use left-overs in stews, hash, meat pies.

SAVE VITAMINS... you need 'em to be strong.
Cook vegetables in as small an amount of boiling water as possible. The flexible Gas flame will give you the exact degree of heat you need.
Cover vegetables and bring to boil quickly over full Gas flame, then turn flame low, cook gently.
Do not use soda in cooking green vegetables. It destroys vitamins. Cook vegetables shortest possible time.
Store fresh vegetables in hydrator of your Gas refrigerator to help preserve perishable vitamins.
